

Your choice to take part

As part of his MA in Community and Youth Work, Fr Peter Stanton is conducting research into the effects of a course here at Castlerigg Manor.

He is inviting you to help him with his research by answering the questions on this sheet. (It will take about 10 minutes to complete.)

Your answers are anonymous: your name will not be recorded. The date will be the only identifying feature on the questionnaire.

The answers you give will contribute to a report that will help Peter get his MA. They will be used to help improve the courses Castlerigg Manor provides and may be published (without the date identification) on the Castlerigg Manor website.

Please indicate at the top of the questionnaire whether or not you wish to take part in this research.

How to Answer

To answer the questions on the questionnaire just put a tick on the phrase that is the best answer for you. E.g.:

Is your knowledge of the Lake District better or worse?

much worse	worse	the same	✓ better	much better
------------	-------	----------	----------	-------------

If you have any further questions regarding this don't hesitate to ask.

Thank you for your help.
